POLYOLEFIN FOAM MANUFACTURERS

Committed to the Environment

An aerial photograph of an industrial facility, likely a factory or warehouse, with large storage tanks and a truck. The image is overlaid with a semi-transparent orange filter. The text is centered over the image.

O.K. Company is an European family business focused since 1995 on the **development, manufacturing and marketing of crosslinked and non crosslinked polyolefin foams.**

BURGOS

Adaptability

Our **flexible business structure** allows us to get adapted easily to new business opportunities or difficult economic environments, assuring company's **stability and future**

Innovation

Development and improvement of our products and processes through continuous cooperation with customers and suppliers is the key factor for our growth

Sustainability

We continually improve our **comprehensive quality, risk prevention and environmental management systems** in order to minimise the environmental impact that we generate.

WE REUSE

WE RECYCLE

Our main objective is and will be the continuous satisfaction of our customers' needs and expectations in an **effective, sustainable and profitable** way.

ANGLESOLA

Social Responsibility

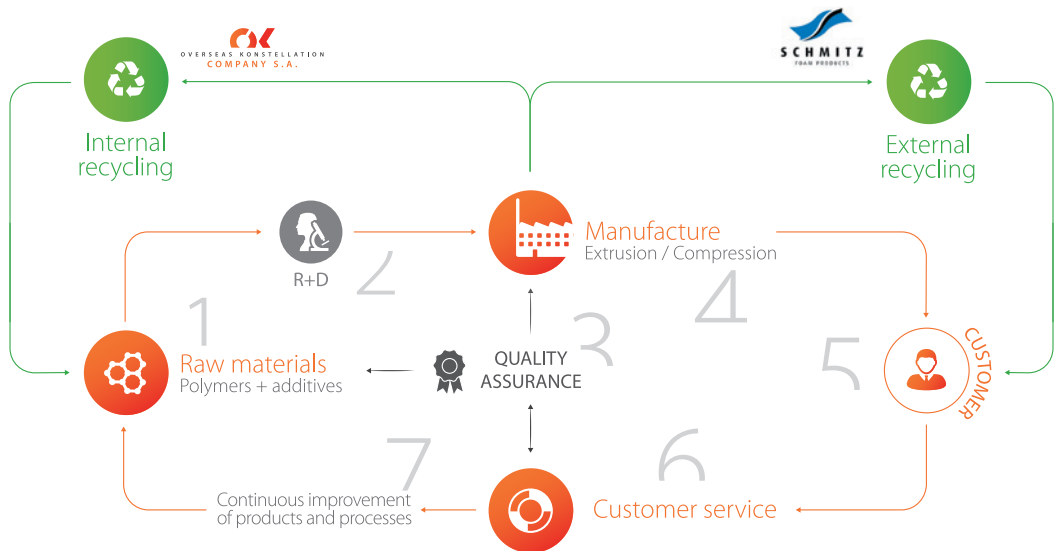

We develop our activity **respecting our social and economical environment**, complying at all times with current legislation and standards.

Certificates

- ISO 9001 •
- ISO 14001 •

PRODUCT PORTFOLIO

The different foaming processes combined with our know-how and multiple raw materials allow us to offer our customers a large portfolio of foamed products to satisfy their needs.

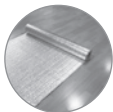

QUALITY AND SUSTAINABILITY,
AXES OF OUR BUSINESS CYCLE

OK-pack®

Protection, packaging and leisure

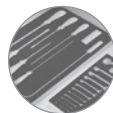

Closed cell non crosslinked polyolefin foam extruded profiles.

Fonpex®

Impact sound insulation

Closed cell non crosslinked polyethylene foam extruded rolls and laminates.

Microlen®

General converting & Industry

Closed cell crosslinked microcellular polyolefin foam blocks.

tubex®

Thermal insulation

Closed cell non crosslinked polyolefin foam extruded tubes.

Environmental responsibility

Technical properties & applications

Reusable

Recyclable

CFC & HCFC free

Complies with CE and R.I.T.E. current regulations

Protection

Packaging

Thermal insulation

Acoustic insulation

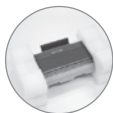

Buoyancy

Roundex®

Sealings backer rod

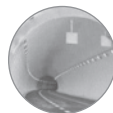

Closed cell crosslinked and non crosslinked polyolefin foam rod for hot and cold sealing applications.

Foampack®

Packaging & Protection

Closed cell non crosslinked extruded polyolefin foam rolls and planks.

Imperlex®

Building & Waterproofing

Tunnel waterproofing integral system for civil works.

Environmental responsibility

Technical properties & applications

Reusable

Protection

Recyclable

Packaging

CFC & HCFC free

Thermal insulation

Complies with CE and R.I.T.E. current regulations

APPLICATIONS AND MARKET SECTORS

Our foamed products are used in multiple **industrial**, **building** and **general consumer** sectors.

TECHNICAL INSULATION

- **Thermal insulation:** plumbing, heating, refrigeration and solar energy instalations.
- **Acoustic insulation:** impact and aerial sound in vertical and horizontal building structures.

INDUSTRY

- **Packaging:** furniture, glassware, automotive components, etc.
- **Building:** hot and cold sealings backer rod, waterproofing, scaffolding protection, etc.

LEISURE

- **Children playgrounds protection.**
- **Fitness:** yoga mats and pillows.
- **Sports personal protections.**
- **Aquatic foam noodles.**
